PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience building responsive, user-friendly web interfaces using React.js, Next.js, and Bootstrap. Background includes UI development and training supervision at Focal X Agency, remote collaboration on Agile/Scrum teams, and ongoing freelance project delivery. Currently combining freelance development work with project coordination experience at Orbit. Strong communicator with a track record of translating business requirements into functional, polished web solutions.

WORK EXPERIENCE

Volunteer Project Coordinator, Orbit May 2026 – Present
Coordinating projects and bridging communication between team members, alongside ongoing freelance development work.

Freelance Front-End / Full-Stack Developer January 2024 – Present
Building independent web projects — landing pages, dashboards and business sites.

Focal X Agency Lattakia, Syria (Remotely)

Front-end Developer June 2023 – January 2024
Main responsibilities:

- Designing and executing responsive user interfaces using HTML, CSS, Bootstrap, JavaScript, and React.js to ensure optimal user experience.
- Collaborating closely with UX/UI designers to translate design concepts into high-quality functional code.
- Ensuring technical feasibility of UI/UX designs and contributing to crafting engaging and user-friendly interfaces.
- Working effectively within teams and facilitating collaboration between designers and backend developers to deliver superior software solutions.
- Comprehending business requirements and translating them into precise technical specifications.
- Communicating effectively with both technical teams and clients to ensure clear alignment between business objectives and technical solutions.
- Using Git for code version control, upholding collaborative and structured development methodologies.
- Establishing connections between applications and web services using RESTful APIs.
- Implementing state management solutions, including Redux, to optimize data flow within applications.
- Conducting thorough testing of components to guarantee seamless functionality and performance.

Front-end Training Supervisor June 2023 – January 2024
Main responsibilities:

- Monitored trainees, enhanced their knowledge, and resolved technical issues they encounter.
- Evaluated trainees' work and projects, guided them towards proper and optimal approaches to task completion.
- Conducted development and practical applications sessions.
- Selected top-performing trainees for employment within the company.

Achievements & Award in Focal X:

- Promoted to the role of Team Leader for programming projects in September 2023
- Selected as Training Supervisor for the fifth group of trainees in the Front-end Developer Course at Focal X in June 2023
- Employee of the Month and Best Trainee at Focal X in March 2023

Special Team (Technical Solutions) (Freelancing/Remotely)

Front-end Team Member

August 2023 – November 2024

- Applying Agile methodology and its tools, and Scrum practices in our programming projects.
- Ensuring efficient communication with team members (front-end, back-end, UI/UX) to deliver top-notch solutions and services.

EDUCATION

Bachelor of Applied Sciences – Majored in Computer Technology

2014 - 2019

Damascus University, Faculty of Applied Sciences — Damascus, Syria

GPA: 75%
